

**QuikClot®**  
Hemostatic Devices

## Quick Reference Purchasing Guide

**Kaolin is the unique differentiator for all QuikClot® products.**

- Use the body's natural clotting cascade
- Absorb blood and initiate the pathway to clot formation, leading to faster bleeding control<sup>3,4,5\*</sup>
- Product portfolio includes applications from abrasions to traumatic bleeding injuries

\*Based on in-vitro testing when compared to standard gauze.

## Bleeding control solutions for multiple points of care.

- **Trauma** – Control when every minute counts; expands blood loss mitigation strategy
- **Cath Lab** – Faster time to hemostasis<sup>5,6\*\*</sup> that may increase productivity<sup>5,6</sup>
- **ED and ICU** – Stabilize and move patients efficiently through points of care

For faster bleeding control,<sup>3,4,5</sup> **it's QuikClot® or it's not.**
